Emergency Evacuation Guidelines

- A) It is the responsibility of the Child Care Facility to prepare plans that allow for partial or full evacuation in a quick and efficient manner. Causes for evacuation may include fire, bomb threat, explosion, flood, severe thunderstorm, severe winter storm, hurricane, tornado, toxic spill, electrical failure or structural damage. In the event of an emergency, evacuation of the facility should be done as quickly and safely as possible. When planning it is important to keep in mind there are three types of evacuations to consider.
- **Sheltering in place:** Children and staff remain at the facility but seek shelter for the emergency at hand. This would include tornado and chemical releases.
 - **On-site evacuation:** Children and staff move out of the facilities affected areas and relocate to another area on the property.
 - **Off-site evacuation:** Children and staff are relocated to designated location not on the facility property.

Emergency planning should include:

1. Authorities, Director, Staff and Families
2. Evacuation Routes
3. Evacuation Procedures/Locations
4. Evacuation of Handicapped Persons
5. Collection Points
6. Accounting of Personnel
7. Assignment of Responsibilities

Additional planning should include:

1. Command Post
2. Medical/Triage Post
3. Communication
4. Transportation
5. Shelters
6. Records
7. Food/Clothing
8. Evacuation Cost Assessment
9. Rescue and Clean-up

- A) A completed Emergency Plan should be reviewed annually and updated as needed. A copy of the plan should be shared with local authorities that may be responding to your emergencies.
- B) Facility staff should be trained in plan procedures and provided clear guidelines to their responsibilities during times of emergency. New staff orientation should include training and review of emergency procedures.
- C) All children should be involved in practicing emergency procedures as outlined by licensing regulations.
- D) Floor plans of the facility should be posted in each classroom and in public spaces showing exits and directional evacuation routes. Copies of floor plans should be shared with local authorities that may be responding to your emergencies.
- E) Fire drills are to be held monthly and documentation should include date, time, and names of children who participated in the drill. Individual classroom attendance forms with first and last names of staff/children present during the drill should be attached to the drill form.
- F) Tornado and earthquake drills are to be held quarterly. Other types of drills should be held at least twice a year and attendance forms with first and last names of staff/children present during the drill should be attached to the drill form.
- G) Power generators (if available) and other emergency equipment should be tested at on a regular schedule.

Child Care Regulations –Type I

922 KAR 2:120 Section 3: Records maintained for a 5 year period.

- 10) Written record of quarterly practiced earthquake and tornado drills detailing the date, time, and children who participated.
- 11) Written record of practiced fire drills conducted monthly detailing the date, time and number of children who participated.
- 12) A written plan and diagram outlining the course of action in the event of natural or manmade disaster, posted in a prominent place.

Adequate Supervision

922 KAR 2:120 Section 1: Definitions

- 1) “Adequate supervision” means that qualified staff devotes full-time attention to a child in care and ensures the child is within scope of vision and range of voice.

Emergency Procedures and Evacuation

I. General Information

- A. The first priority of a child care facility is the safety of the children and staff. Emergency plans are to provide facility staff with procedures to be followed to help ensure everyone's wellbeing.
- B. When an emergency occurs, the Director or designee needs to be notified as soon as possible regarding the situation and the response to it.
- C. In the event of an emergency, the Director or designee may require that all staff remain at work or return to work until the situation is no longer deemed an emergency. This is necessary to maintain adequate supervision of the children. In the state of Kentucky, adequate supervision is defined as qualified staff devoting full-time attention to a child in care and ensures the child is within scope of vision and range of voice. (922 KRS 2:120) Child-Care Healthy and Safety Standards.
- D. Emergency Planning Sheets are located on pages 18-30.

Disaster Supply Kit

Class roster with emergency contact information/children's records
Battery operated or solar operated radio
Blankets
Crescent wrench to shut off gas line if needed (professional will need to restore)
Extra batteries (replaced twice a year)
First aid kit (see state child care regulations for required items)
Flashlight(s)
Hand sanitizer, Sanitizing surface wipes
Non-perishable food items and manual can opener (minimum supply for 3 days)
Phone card\ Cell phone
Plastic trash bags
Sanitation supplies (diapers, wipes, toilet paper, soap)
Water & disposable cups
Wet wipes/tissues
Whistles
Work gloves

II. **Fire** (Ky. regs. Require reporting to cabinet within 24 hours any incident involving fire)

- A. Evacuate the area of the fire (stay low if necessary to lessen the effects of smoke and gasses that collect up high) closing classroom doors upon exiting.
- B. Activate the fire alarm.
- C. Call **911 or local authorities**, informing them of the type of emergency and the need for assistance. Initiate alternate communication systems in the event phone service is lost.
- D. If possible, provide emergency services with additional information regarding the fire:
 1. Yellow smoke may indicate the presence of toxic gasses (note: all smoke is toxic).
 2. Gray smoke with brown wisps may indicate an electrical fire.
 3. Gray-black smoke indicates primary fire – the use of a fire extinguish may be helpful in the first minutes of fire discovery and there is little danger of smoke inhalation.
- E. Fire Extinguishers should only be used for small fires, and staff should be trained in the PASS extinguishing method:
 1. **P – Pull** the Pin.
 2. **A – Aim** the extinguisher low and at the source of the fire.
 3. **S – Squeeze** the handle to discharge extinguisher.
 4. **S – Sweep** slowly back and forth across the sources of the fire.
- F. A facility representative will go to the nearest intersection, direct emergency personnel to the scene and make them aware of the situation.
- G. Director or designee will communicate with fire officials in determining next steps.
- H. Make certain that all children and staff are accounted for (using class rosters) and are a safe distance from the facility. This may mean moving children and staff off facility property to an alternate location.
- I. No one should re-enter the facility until fire officials have given the all clear.
- J. With any incident involving fire, ***notify the cabinet within 24 hours.***

III. Hazardous Materials Incident in the Facility

- A. Evacuate the area immediately.
 - 1. Do not turn any electrical switches on or off.
 - 2. Extinguish all open flames.
 - 3. Evacuation should be to an area (if possible) upwind and uphill of the facility.
- B. Call **911 or local authorities**, and report that there has been a Hazardous Material Spill.
- C. Do not attempt to contain, touch, or identify (if unknown) the hazardous material.
- D. Do not attempt to rescue someone who has been overcome by fumes.
- E. If a child or staff member has contact with chemicals, the chemicals should be washed off immediately.
- F. For an incident in the community that may affect the facility, follow the advice of local authorities which may include evacuation or sheltering in place.
- G. Do not return to the facility until authorities have given the all clear.

Communication during a Catastrophic Event

Texting will be used in the event that the phone lines are down or overloaded.

“The success of any plan depends on the ability of the people administering the plan, to adapt the plan to fit the situation.” – Bud Fekete

IV. Inclement Weather -Severe Weather Watches/Tornado Watch & Warning Procedures/Flooding

- A. The *designated safe place for this facility* is any windowless rooms. **Students should be taken to the inside hallway/rooms away from windows and doors**
1. Staff shall gather children (account for everyone) and move to the designated safe place.
 2. Staff shall maintain flashlight and voice contact at all times.
 3. Children should be seated with their backs against the wall, knees drawn to chest, and head down and covered with their hands. (Tornado Warning)
 4. Staff should assume this position when the children are in position and all accounted for. (Tornado Warning)
- B. After absolute certainty that the storm has passed,
1. Account for all children.
 2. Provide necessary first aid and call **911 or local authorities** for needed assistance.
 3. Check the complete facility for any damages such as fire, water, or structural.
 4. Turn on and test utilities if needed.
- C. Notify Director or designee as soon as possible with update of conditions.
- D. Notify all service representatives of services needed.
- E. **Severe Thunderstorm WATCH**
1. Advise all staff members of the weather conditions.
 2. Monitor radio/television news for updates and/or NOAA Weather Radio.
 3. Modify outdoor activities to ensure that relatively quick access to shelter is available
- F. **Thunderstorm Warning**
1. Advise all staff members of weather conditions.
 2. Monitor radio/television for updates and/or NOAA Weather Radio.
 3. Terminate outdoor activities and seek shelter.
 4. Monitor sky conditions. If a dark, funnel shape cloud is seen, seek shelter and if possible call **911 or local authorities** to report it.
 5. ***If facility is damaged and requires temporary or permanent closure, the cabinet and parents of a child enrolled in the facility should be notified as soon as practicable.***
- F. **Tornado Watch**
1. Advise all staff members of weather conditions.
 2. Monitor radio/television for updates and/or NOAA Weather Radio.

3. Terminate outdoor activities and seek shelter.
4. Monitor sky conditions. If a dark, funnel shape cloud is seen, seek shelter and if possible call **911 or local authorities** to report it.

G. Tornado Warning

1. Monitor radio/TV continuously.
2. Monitor sky conditions. If a dark, funnel shape cloud is seen, seek shelter (see "A" of this section), and if possible call **911 or local authorities** to report it.
3. Turn off utilities if time permits.
4. Children and staff take shelter in designated area.
5. ***If facility is damaged and requires temporary or permanent closure, the cabinet and parents of a child enrolled in the facility should be notified as soon as practicable.***

H. Flooding

1. When flash flooding conditions are forecast, the following guidelines shall be used:
 - a. Contact the child care facilities director or designee.
 - b. Monitor television, radio and/or NOAA Weather Radio for forecast updates.
 - c. Move records and valuable equipment to higher areas. Store chemicals out of the reach of flood water to prevent water contamination.
 - d. Make transportation preparation to move children and staff in the event of an evacuation.

The facility off-site evacuation site is: Bardstown Primary School

The evacuation route is: Walking to down Pennsylvania Avenue to the Primary School by using bus port route onto the property.

2. Evacuation
 - a. If the facility is in low lying area vulnerable to flooding, evacuation will be immediate. N/A
 - b. Evacuation is to follow the safest route possible (listen to weather and news reports for routes.) Staff shall maintain flashlight and voice contact at all times and ensure all children and staff are accounted for.
 - c. If time and conditions permit, shut off facility power at the utility box.
 - d. If time and conditions permit, all loose outdoor articles should be properly stored.
 - e. Lock all doors upon completion of facility evacuation.

V. Illness or Injury

A. Minor (*report to cabinet within 24 hours if medical attention needed*)

1. Treat with medical supplies on hand.
2. Evaluate periodically to see if further medical attention is required.
3. Document treatments and evaluations in children's file.
4. Consult family members.

B. Major (*report to cabinet within 24 hours*)

1. Staff trained in first aid techniques should triage injuries.
2. Contact **911**, if immediate medical attention is required.
3. If an illness or an injury requires a doctor's care, but an ambulance is not required, the staff members should then contact the child's family to make arrangements for pick-up and transportation for appropriate medical care.

C. Death (*report to cabinet within 1 hour*)

1. If a death occurs at the child care facility, procedures are:
 - a. Call **911** and request emergency assistance.
 - b. Contact local law enforcement and Superintendent; allow them to notify the family.
 - c. Do not move or tamper with the body.
 - d. Children and staff should be moved to other parts of the facility away from the incident scene.
 - e. Parents of children enrolled in the facility should be provided essential information and allowed to tell their child (ren) at their discretion (counseling may be needed in the weeks ahead).
 - f. It is in everyone's best interest to keep media out of the facility. No one should answer media questions except for the facility attorney.

VI. Serious Illness or Injury

(Ky. regulations require reporting communicable disease with 24 hours to the cabinet.)

The immediate concern is to aid the sick or injured person. Staff members should follow this plan.

- A. No staff member should place themselves at risk attempting to rescue an injured child or staff member.
- B. Do not move the victim, especially if their injury is the result of a fall, unless they are in a life threatening or dangerous environment.
- C. Notify the facilities staff certified in first aid/CPR. Certified staff members **See attached list on page 33**
- D. Call **911 or local authorities** and request assistance.
- E. Treat immediately life-threatening injuries such as:
 1. **Impaired breathing** – Work efficiently. Death can occur in 6 minutes or less once the body is oxygen deprived. Place the victim on his/her back, loosen collar, remove any obstructions to the airway, and begin mouth-to-mouth resuscitation (if you are certified). Once the victim is breathing on his/her own, treat for shock.
 2. **Heart or circulatory issues** – Work quickly. If possible, get the first aid/CPR certified staff to assist you. Work as a team. If heartbeat returns, continue to monitor the patient, treat for shock and wait for EMS.
 3. **Severe Bleeding** – Act quickly. Apply direct pressure on the wound with your hands, using a clean cloth if available. If there are no fractures, elevate the wound. If bleeding is of a squirting or pumping nature, apply pressure to the appropriate arterial pressure point. A tourniquet should not be used except as a last resort.
 4. **Shock**- If there is not head or chest injury, keep the victims head lower than the rest of the body. Loosen constricting clothing and cover with blankets. Encourage fluid in-take if the victim is conscious, and there is no abdominal injury or nausea.
- F. Other injuries/illnesses should be treated in priority with respect to the threat of life.
- G. Assist victim in seeking medical attention or transport to hospital.

VII. Bomb Threats

NOTE: Never move or touch unidentified or suspicious objects!

A. General Precautions

1. Any bomb threat should be treated as real.
2. Unidentified or suspicious objects should be reported to the authorities.
3. Evacuation should be the football field and as far from the facility as safely as possible (a minimum of 600 feet). Do a quick search of the area to be used for evacuation to make sure it is secure.
4. Upon evacuation, all windows and doors should be left open, if possible to minimize shock damage from a potential blast.
5. Upon arrival of law enforcement, the facility director, or designee, will assist authorities in identifying strange or suspicious objects.
6. No one is to re-enter the facility until the authorities have given the "all-clear".

B. Telephone Threat

1. The staff member receiving the call should inform other staff that a bomb threat is in progress.
 - a. Evacuate the facility immediately for an immediate threat.
 - b. **Call 911 and Ryan Clark , School Superintendent at 331-8800 or 249-1681 and follow their instructions.**
3. The staff member receiving the call should keep the caller on the line as long as possible.
4. Information about the caller and the bomb should be recorded on the bomb threat form (form on next page).
5. Obtain as much information from the caller as possible regarding the information requested on the bomb threat form.
6. No one is to re-enter the facility until the authorities have given the "all-clear".

C. Written Bomb Threat

1. The staff member receiving the written threat should handle it as little as possible (to preserve finger prints) and should save all materials included in the envelope or container holding the threat.
2. Call **911 and Ryan Clark, School Superintendent, 502-331-8800 or 502-249-1681 and follow their instructions.**
3. All materials involved in the threat should be turned over to authorities.
4. No one is to re-enter the facility until the authorities have given the “all-clear”.

**Bomb Threat
Information Form
located on the next page.**

Bomb Threat Information Form

Exact Time of Call: _____ Date of Call: _____

Exact words of caller:

Questions to ask: (if you can keep the caller talking and get this information)

1. When is the bomb going to explode? _____
2. Where is the bomb? _____
3. What does it look like? _____
4. What kind of bomb is it? _____
5. What will cause it to explode? _____
6. Did you place the bomb? _____
7. Why? _____
8. Where are you calling from? _____
9. What is your address? _____
10. What is your name? _____

Describe the callers Voice (circle)

Male/Female Age _____

Calm	Distinguished	Nasal	Angry	Broken
Stutter	Slow	Sincere	Lisp	Rapid
Giggling	Deep	Crying	Squeaky	Excited
Stressed	Accent	Loud	Slurred	Normal

Threat Language

Well Spoken (educated)	Irrational	Message read or recorded
Foul/vulgar	Incoherent	

Did you recognize the voice? Whose voice did you hear? _____

Were there any background noises? _____

Who received the call? _____

Phone number call received on? _____

VIII. Utilities and Maintenance Emergencies

It is best practice to be familiar with the locations of all utility shut-offs

A. Gas Leaks

1. If anyone smells natural gas, act quickly.
 2. Open the windows immediately.
 3. Call **911, and Craig Newton, Maintenance Director 502-249-0240** and report a possible gas leak.
 4. Do not turn any electrical switches on or off. Extinguish all open flame.
 5. Turn off the main gas line at the meter using a crescent wrench.
Turn a quarter turn in either direction.
 5. If the gas odor remains strong, evacuate the area immediately.
 6. Do not return to the facility until the fire department gives the “all clear

B. Power Outages

1. If the facility has emergency lighting, they should come on automatically.
2. The program has 3 flashlights which are located in the Emergency Kit.
Additional batteries are located in the Disaster Kit
3. A battery-operated radio is located in the office. The radio may be used to monitor weather conditions, etc. Tune to local media stations for updates. Local stations include: WBRT 1320 A.M. and 102.7 F.M.
4. In the event of a power failure, the facility staff on duty should contact the following:
 - a. The child care facilities director or designee. Christy VanDeventer, 502-249-1135, Brandi Jury 502-203-4320-- or
 - b. Craig Newton, Maintenance Director 502-249-0240 -- or
 - c. City of Bardstown 502-348-5947

C. Water Loss

1. The emergency water supply is located in the kitchenette on shelves.
This water should be used sparingly, and only for an emergency.
2. In the event of loss of water, facility staff should contact:
 - a. The child care facilities director or designee. Christy VanDeventer, 502-249-1135, Brandi Jury 502-203-4320-- or
 - b. Craig Newton, Maintenance Director 502- 249-0240 or
 - c. City of Bardstown 502-348-5947

D. Telephone Service Loss

1. In the event of the facility's phone service is disrupted, use a cell phone to contact:
 - a. The child care facilities director or designee. Christy VanDeventer, 502-249-1135, Brandi Jury 502-203-4320---- or
 - b. Steve Arnold, 502-331-8877, 502-249-1128 -- or
 - c. City of Bardstown 502-348-5947
 - d. **E. Heat/Air conditioning Loss**

1. Contact the child care facility director or designee.
Christy VanDeventer, 502-249-1135, Brandi Jury 502-203-4320-or
2. Contact Craig Newton, Maintenance Director 502-249-0240

F. Plumbing Problems

1. Contact the child care facility director or designee. Christy VanDeventer, 502-249-1135, Brandi Jury 502-203-4320- or
2. Contact Craig Newton, Maintenance Director 502-249-0240

G. Locks and Keys Problems

1. Contact the child care facility director or designee. Christy VanDeventer, 502-249-1135, Brandi Jury 502-203-4320- or
2. Contact Craig Newton, Maintenance Director 502-249-0240

IX. Emergency Evacuation

- A. In the event of a fire, bomb threat, electrical, chemical or other emergency that requires the evacuation of the facility, all staff members should adhere to the following:

1. **Call 911 or local authorities, Christy VanDeventer 502-249-1135, Brandi Jury 502-203-4320- and/or Ryan Clark, School Superintendent, 502-331-8800 or 502-249-1681** and follow their instructions.
 2. Make sure all children and staff are accounted for and safe.
 3. Evacuate all children and staff as far away from the facility as safely practical.
 - a. Adhere to predetermined evacuation routes, if possible; however, do not hesitate to adjust these routes to avoid dangerous areas.
 - b. All children and staff members with special needs are to be assisted as needed.
 4. Again, make sure all children and staff are accounted for and safe.
 5. Contact the child care facility director or designee as soon as possible.

6. No one is to re-enter the facility until the authorities have given the “all-clear”.

X. Lockdown Procedure

A. Lockdown is implemented to ensure the safety of the children and the staff from intruders or a major incident in the community.

1. Outdoor procedures

a. Calmly but quickly move the children inside to the interior hallway away from doors and windows. Close and secure all outside doors. Establish contact with local authorities as soon as possible.

2. Indoor procedures

a. Move all children into classrooms away from visibility as much as possible (corners, closets, bathrooms). Turn off all lights and close window blinds.

b. Lock doors where possible and establish contact with local authorities as soon as possible.

c. Keep children and staff away from windows and doors.

d. Remain calm.

e. If perpetrator(s) gain entry into the building and gunshots or an explosion occurs inside the building, children and staff should exit immediately from the building using the doors in each classroom that lead directly outdoors. Children should be lead to safety and shelter away from the building as quickly as possible to the Bardstown Primary School. If unable to leave the building, everyone should lay on the floor away from windows and doors.

h. Remain in safe area until “all clear” is given.

3. Director or Designee Procedures

a. Move to a safe location that has access to a phone. Keep the phone lines clear in order to maintain open communication with the authorities.

b. Coordinate all activities with the authorities including the “all clear.”

4. All Clear

The Director or Designee will give the “All Clear” when the incident has been resolved and the authorities have approved resuming normal activities.

If our computers are destroyed, we will use back up computers located where	IT department has sufficient back-up computers.
	Back Up Records
Person responsible for backing up critical records including children's records, payroll, accounts, etc.	Christy VanDeventer Tracey Rogers Steve Arnold
On-site location of back up records including insurance policies, facility plans, bank accounts records, and computer back ups	This is all handled at Central Office.
Offsite location of additional copy of back-up records	Records are backed up on 2 servers in two different locations.
	Emergency Shut Off Locations
Electricity	Contact Craig Newton 502-249-0240
Water	Craig Newton 502-249-0240 or City of Bardstown 348-5947
Gas	Contact Craig Newton 502-249-0240 or LGE 800-331-7370
	Emergency Equipment Locations

Alarm Box	End of the hallway in Building 1 (largest building)
Fire Extinguisher	Located throughout the building.
First Aid Kit	One in each childcare room and main office
Disaster Kit	Kitchen
Emergency Contact Information Annual Review	
Date the emergency plan will be reviewed/updated	As needed, but at least once a year.

EMERGENCY FORM

INSTRUCTIONS TO PARENTS:

(1) Complete all items on this side of the form. Sign and date where indicated.

(2) If your child has a medical condition which might require emergency medical care, complete the back side of the form. If necessary, have your child's health practitioner review that information.

NOTE: THIS ENTIRE FORM MUST BE UPDATED ANNUALLY.

When parents cannot be reached, list at least one person who may be contacted to pick up the child in an emergency:

1. Name _____ Telephone (H) _____ (W) _____
Last First

Address _____ Street/Apt. # _____ City _____ State _____ Zip Code _____

2. Name _____ Telephone (H) _____ (W) _____
Last First

Address _____ Street/Apt. # _____ City _____ State _____ Zip Code _____

3. Name _____ Telephone (H) _____ (W) _____
Last First

Address _____ Street/Apt. # _____ City _____ State _____ Zip Code _____

Child's Physician or Source of Health Care _____ Telephone _____

Address _____ Street/Apt. # _____ City _____ State _____ Zip Code _____

In EMERGENCIES requiring immediate medical attention, your child will be taken to the NEAREST HOSPITAL EMERGENCY ROOM. Your signature authorizes the responsible person at the child care facility to have your child transported to that hospital.

Signature of Parent/Guardian _____ Date _____

Child's Name _____ Birth Date _____

Last First

Enrollment Date _____ Hours & Days of Expected Attendance _____

Child's Home _____

Address _____ Street/Apt. # _____ City _____ State _____ Zip Code _____

Mother's Name _____ Home Telephone _____

(Initials/Date)

INSTRUCTIONS TO PARENT:

(1) Complete the following items, as appropriate, if your child has a condition(s) which might require emergency medical care.

(2) If necessary, have your child's health practitioner review the information you provide below and sign and date where indicated.

Child's Name: _____ Date of Birth: _____

Medical Condition(s): _____

Medications currently being taken by your child: _____

Date of your child's last tetanus shot: _____

Allergies/Reactions: _____

EMERGENCY MEDICAL INSTRUCTIONS:

(1) Signs/symptoms to look for: _____

(2) If signs/symptoms appear, do this: _____

(3) To prevent incidents: _____

OTHER SPECIAL MEDICAL PROCEDURES THAT MAY BE NEEDED:

COMMENTS: _____

Note to Health Practitioner:

If you have reviewed the above information, please complete the following:

Name of Health Practitioner Date

Signature of Health Practitioner () Telephone Number

Helping Children Understand After a Disaster

What is a disaster: A disaster is something that happens that causes damage to property and could hurt people. Most disasters are caused by nature being out of control, these may include tornados, hurricanes, earthquakes, wild fires, winter storms, and floods. Sometimes, disasters are man-made and include hazardous waste spills, fires and terrorism.

What children should know:

- Warning signs of disaster.
- That people will help them.
- How to call 911.
- That by practicing for a disaster, they can help keep themselves safe.

Children will be most afraid of:

- The disaster will happen again.
- Someone they love has been injured or killed.
- They will be separated from their family.
- They will be left alone.

Children’s reactions may include:

- Regressive behavior (bedwetting, clinginess, thumb sucking).
- Headache, stomach ache.
- Thinking difficulties (confusion, inability to concentrate).
- Sleep Issues (fear of the dark, trouble falling asleep, nightmares).

Helping children understand:

Children may find it difficult to understand and accept what has happened. While there may be no physical injury to the child, the emotional injury is there. Children may become clingy, irritable or distant and may seek constant reassurance. It may be difficult understanding the relationship between the disaster and the short and long term affects of the upheaval that comes with it.

Typical Reactions to Disaster for Children 1-5 Years of Age

Regressive Behaviors	Physiological Behaviors	Emotional Behavioral
<ul style="list-style-type: none"> • Bed wetting • Thumb sucking • Fear of darkness • Fear of animals • Fear of “monsters” • Fear of strangers 	<ul style="list-style-type: none"> • Loss of appetite • Overeating • Indigestion • Vomiting • Bowel/bladder problems (diarrhea, constipation, urine leakage) • Sleep disorders and nightmares 	<ul style="list-style-type: none"> • Nervousness • Irritability • Disobedience • Hyperactivity • Tics • Speech difficulties • Separation anxiety • Shorter attention span • Aggressive Behavior • Exaggeration/distortion of the event • Repeatedly talking about the experience • Behavior issues

Typical Reactions to Disaster for Children 1-5 Years of Age

Regressive Behaviors	Physiological Behaviors	Emotional Behavioral
<ul style="list-style-type: none"> • Increased sibling rivalry • Excessive clinginess • Crying, whining & whimpering • Wanting to fed or dressed • Engaging in habits previously given up 	<ul style="list-style-type: none"> • Headaches • Complaints of visual/hearing problems • Habitual itching or scratching • Sleep disturbances, nightmares or terrors 	<ul style="list-style-type: none"> • School phobias • Withdrawal from friends • Withdrawal from family • Irritability • Disobedience • Weather related fears(rain, winds) • Inability to concentrate-falls behind in school work • Aggressive behavior • Repeatedly talking about the disaster • Sadness over losses

Comforting the children:

- Try to remain calm yourself.
- Try to keep children's exposure to TV and radio to a minimum. What they see and hear may add to their anxiety or be taken out of context. It is important to remember that the children will take cues from adult conversations as well. Answer children's questions simply and honestly. You may find yourself answering the same questions over and over again. This is one way children use to reassure themselves.
- Spend extra time with the children. Hugs and holding hands are good ways to provide comfort. Use a quiet, soothing tone to help calm them.
- Reassure the children that their parents will come for them as quickly as possible, but that it is important for their parents not to put themselves in danger trying to get to the child.
- Try to restore normal routines as quickly as possible in order to provide a sense of normalcy and security.
- Don't promise that there won't be another disaster. Encourage children to talk about their fears and what they can do to help others. Encourage the children to act out what happened and how they feel. Let them know that you will do everything you can to keep them safe.
- Be patient and understanding with the children, it may take a while for the aftermath of the trauma to sink in.
- Find ways that the children can help you or to help others. The ability for the children to feel useful and helpful is reassuring to them.
- Children, who are injured or have injured friends and relatives as a result of the disaster, are more likely to suffer emotional distress.
- Educate children on disaster preparedness. Knowing what to do ahead of time is empowering!

Parent Emergency Evacuation Information Form – Pennsylvania Avenue Child Care

Included in enrollment packet and given to parents annually at re-enrollment

Posted on the Childcare Website at www.bardstown.kyschools.us

Name of program	Bardstown Child Care Program
Program address	895 Pennsylvania Avenue, Bardstown, Kentucky
